ADVANCES IN COLLOID AND INTERFACE SCIENCE

CONTENTS OF VOLUME 30 (1989)

Effects of organized surfactant assemblies on acid-base equilibria
O.A. El Seoud (São Paulo, Brazil) 1

The enzyme-triggered coagulation of casein micelles
T.A. Payens (Ede, The Netherlands) 31

Electrical phenomena at the surface of phospholipid membranes relevant to the sorption of ionic compounds
H. Matsumura and K. Furusawa (Ibaraki, Japan) 71

Electrokinetic measurements by electroacoustical methods
A.J. Babchin, R.S. Chow and R.P. Sawatzky (Edmonton, Canada) 111

Electrorheological fluids as colloidal suspensions
A.P. Gast (Stanford, CA, U.S.A.) and C.F. Zukoski (Urbana, IL, U.S.A.) 153

Statistical mechanics of adsorption of polyatomic molecules on solid surfaces
A. Patrykiejew and S. Sokołowski (Lublin, Poland) 203

Book Review 335
